Declaration of CALIFORNIA PROPOSITION 65

Dear Valued Customer,

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986) requires businesses to provide warnings when individuals may be exposed to chemicals known to the State of California to cause cancer, birth defects and/or other reproductive harm.

PRECI-DIP products are generally incorporated into electrical or electronic equipment and are not intended to be directly accessible to end users during normal use.

Based on supplier declarations, material specifications and internal product reviews available at the date of issue, PRECI-DIP confirms that certain products may contain the following substances listed under California Proposition 65 :

Substances	Maximum concentration
Beryllium	Up to 2.0%
Cadmium	Up to 0.01%
Lead	Up to 3.5%
Nickel	Up to 0.3%

These substances are generally contained within metallic alloys or product materials and are not intended to result in exposure during the normal use of PRECI-DIP products.

Certain machined contacts, sockets and connector components manufactured from leaded brass alloys may contain lead (Pb).

Potential exposure to listed substances may occur during manufacturing, machining, grinding, recycling, shredding, melting or other material processing operations.

This declaration is based on material declarations, supplier statements, technical documentation and internal compliance assessments available at the date of issue.
