

WIRE TO BOARD CONNECTORS

STANDARD AND CUSTOM SOLUTIONS BY PRECI-DIP

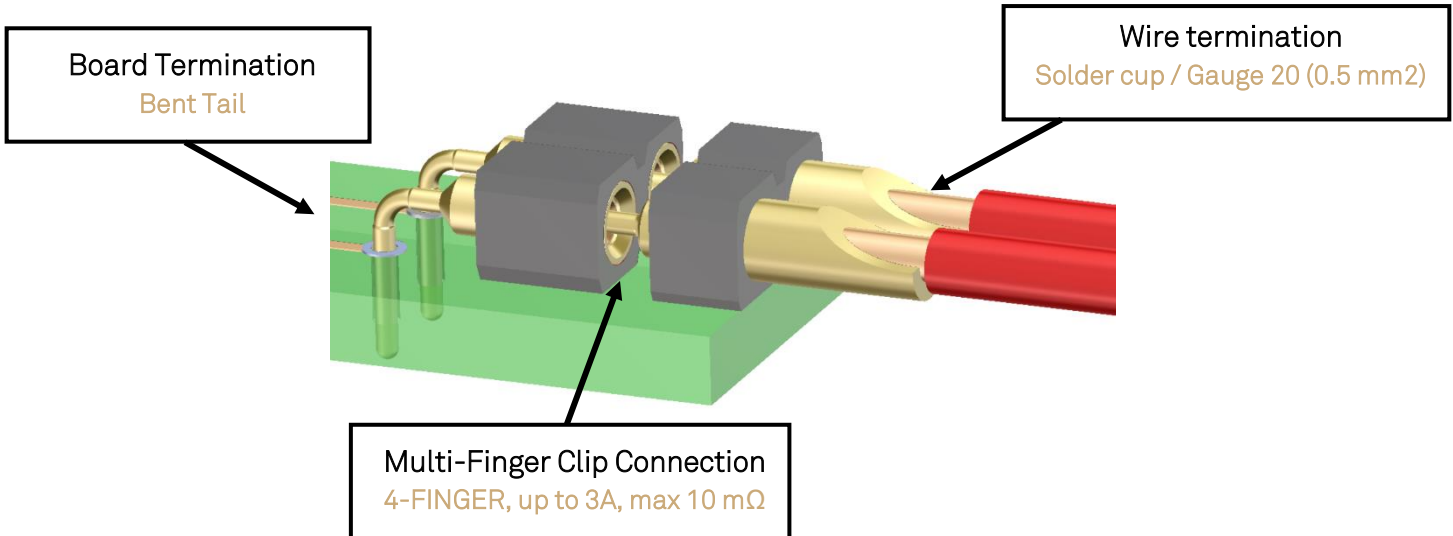

preci-dip

HIGH PRECISION WIRE TO BOARD CONNECTORS

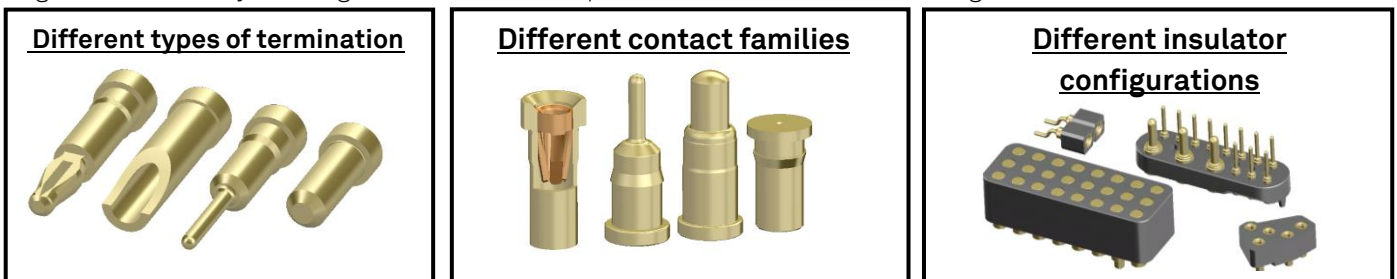

PRECI-DIP is a world leader in designing and manufacturing screw machined, high precision and high quality contacts and connectors. We offer over 25.000 references in our catalogue, with many kinds of terminations and technologies. PRECI-DIP connectors can be mated together to make efficient and highly reliable wire to board connections.

Below is an example of our 380-10-102-00-001101 mated with 399-87-104-10-003101:

CUSTOMIZABLE SOLUTIONS

PRECI-DIP's proprietary unique production system, from raw material to finished product, is entirely in-house built, including all our tooling, high speed screw machines, and automatic assembly machines. This gives our team of engineers the ability to design and build custom products to fulfill the demanding needs of our customers.

MANY APPLICATIONS OF WIRE TO BOARD CONNECTORS

CONSUMER

Spring loaded custom wire to board connector with oriented solder cup

MEDICAL

Custom connectors with pin and socket contact for a medical harness

INDUSTRIAL

Connector with die cast housing and insulated single post contact

MILITARY

8-way standard connector with wire wrapping turret head
